RIPS Technologies GmbH

ripstech.com
Universitätsstr. 142
44799 Bochum, Germany

Reinforcing our growing business, we are looking for a

BACKEND ENGINEER (M/W)

WE ARE RIPS

RIPS Technologies is a fast growing technology company in Bochum, Germany. Our highly efficient software RIPS is able to automatically identify complex security vulnerabilities in web applications that no other tools are able to find. The underlying analysis engine was awarded, amongst others, with the Internet Defense Prize by Facebook. Our software is used worldwide by governments, large corporations as well as small and medium sized businesses and start-ups. By applying state-of-the-art web technologies you deliver scalable REST APIs for distributed systems in close collaboration with our efficient Frontend team.

YOUR ROLE

- Continuous development and improvement of our product
- Extending and maintaining our API (api.ripstech.com)
- Implementing and documenting new APIs based on the Symfony framework
- Coordinating efficient development with our Frontend team

YOUR PROFILE

- Excellent programming skills in PHP with at least 2 years of practical programming experience
- Expert knowledge in HTTP, PHP, OOP, and SQL
- Experience with the PHP framework Symfony
- Development tools, e.g. Git, Jira, Unit Test etc., are familiar to you
- Basic knowledge of web security rounds up your profile

YOUR BENEFITS

- Join a highly motivated team and become an integral part of the RIPS family
- Work with leading experts in information security and a superior product
- Work in a major position with excellent development options on international platforms
- Attractive salary and additional pension scheme
- Flexible working hours and regular team events

Please send us your application via email to:
