RIPS Technologies GmbH

ripstech.com
Universitätsstr. 142
44799 Bochum, Germany

Reinforcing our growing business, we are looking for a

FRONTEND ENGINEER (M/W)

WE ARE RIPS

RIPS Technologies is a fast growing technology company in Bochum, Germany. Our highly efficient software RIPS is able to automatically identify complex security vulnerabilities in web applications that no other tools are able to find. The underlying analysis engine was awarded, amongst others, with the Internet Defense Prize by Facebook. Our software is used worldwide by governments, large corporations as well as small and medium sized businesses and start-ups. Our interactive analysis dashboard is updated and enhanced regularly with the latest web technologies. (<https://demo.ripstech.com>)

YOUR ROLE

- Concepting and developing of JavaScript / TypeScript components for our product
- Extension and maintenance of our user interface (demo.ripstech.com)
- Implementation and documentation of new interface features
- Coordinating the development with our backend - and design team

YOUR PROFILE

- You gained 2 years of practical programming experience with JavaScript / TypeScript
- You have expert knowledge in web technologies, e.g. CSS3, HTML5, HTTP
- You already worked with the JavaScript framework Angular
- Development tools, e-g Git, Jira, Unit Test etc, are familiar to you
- Basic knowledge of web security rounds up your profile

YOUR BENEFITS

- Join a highly motivated team and become an integral part of the RIPS family
- Work with leading experts in information security and a superior product
- Work in a major position with excellent development options on international platforms
- Attractive salary and additional pension scheme
- Flexible working hours and regular team events
