

RIPS Technologies is a fast growing technology company in Bochum, Germany. Our highly efficient software RIPS is able to automatically identify complex security vulnerabilities in web applications that no other tools are able to find. The underlying analysis engine was awarded, amongst others, with the Internet Defense Prize by Facebook. RIPS is used by companies world-wide to remediate security risks in a time- and cost-efficient way, before these are exposed to hackers. The software can be installed locally or used as a cloud service.

In order to strengthen our growing business we are seeking a

# Software Engineer

## for full-time employment in Bochum

### Your Tasks

- Implement new backend and frontend features ([demo.ripstech.com](http://demo.ripstech.com))
- Extend and maintain our API ([api.ripstech.com](http://api.ripstech.com))
- Research and monitor updates of major frameworks and PHP builtins
