Reinforcing our growing business, we are looking for a

## WEB DESIGN – WORKING STUDENT

### THIS IS RIPS

RIPS Technologies GmbH is a high-tech company based in Bochum, Germany, and delivers automated security analysis for web applications as platform independent software or highly scalable cloud service (<https://demo.ripstech.com>). With innovative and language-specific code analysis algorithms even complex security vulnerabilities are detected that no other solution is able to find. Detailed patch instructions allow developers and consultants to remediate security risks in a time- and cost-efficient way, before these are exposed to attackers.

### YOUR TASKS

- You design and implement new pages for our website
- You improve existing web pages in cooperation with our marketing team
- You understand and observe user behavior, dig into data, draw conclusions, and cautiously interpret
- You help to evolve the visual identity for the corporate brand

### YOUR PROFILE

- Passion for questioning assumptions and solving problems through design
- Fluent in HTML and SCSS
- Experience with standard design tools (e.g. Adobe Illustrator) is nice to have
- Excellent communication skills and a quick grasp of concepts

### YOUR BENEFITS

- Work with leading experts in information security and a superior product
- Join a highly motivated and diverse group of people and become part of the RIPS family
- Work in a major position with excellent development options on international platforms
- Snacks and drinks fully provided featuring our very own coffee blend
- Flexible working hours and regular team events
